A significant milestone for Year 11

Firstly, we would like to commend all students who attended the Easter school revision sessions over the break. Since returning to school, we continue to be impressed with the effort that Year 11 students have been making with their revision; record numbers of students are attending breakfast revision in the morning, working lunch and champions' hour after school.

Last week's final Year 11 parents' evening was a great success. Thank you to all of you who were able to attend with your children. Please ensure you have checked your email for a letter sent at the start of this week outlining the final plan for the students' final term. The letter contains important information regarding students' timetables and key dates for the exams.

This week also marked a significant milestone for Year 11 art and photography students who completed their final exams. Ms Pain, Head of Art and Photography, noted: "In recent weeks, an increasing number of students have been using their lunchtimes and champion's hour to complete additional art work, demonstrating their determination to achieve fantastic grades. I am extremely proud of their progress this year, and they should be proud of themselves as well. It has been wonderful to see each of them approach the themes with their own creative vision and uniqueness."

As always, we are here to support our students and families. Should you have any questions, please do not hesitate to contact us

Next week's revision timetable (week beginning 29th April)

Next week marks the 14th week of the revision timetable. With just two weeks remaining until the exams, we would like to congratulate the students who continue to work through the activities each week.

Students have been reminded that it is not too late to join in again – they can attend working lunch or champions' hour and work through the activities listed for their subjects as part of their daily revision.

Year 11 revision timetable reminders:

- The timetable has been expertly planned by subject teachers at Orchard Park to support Year 11 with their exam preparation.
- The timetable gives students ONE topic to focus on revising for each of their subjects, every week.
- The timetable includes specific revision activities aligned with each topic.
- A digital copy is uploaded on to their Google Classroom page and the school website each week.
- Every revision activity brings students one step closer to achieving a fantastic GCSE grade.
